### **Presenters**

**Rick Corey**, Technology and Marketing Coach, RE/MAX Preferred and former Network Administrator and Trainer for RASCW and SCWMLS

Computers, smartphones and tablets are all vulnerable to the threats lurking around the digital world. There are things you can and should do to protect your devices. Rick has a wealth of experience in the real estate industry and will share some important steps you can take to keep you and your clients safe.

**Amy Ritchie Pierquet**, Woman to Woman Self Defense

We've all seen the headlines and we don't like to think about it, but real estate agents regardless of gender are physically vulnerable. You need to protect yourself. Amy teaches self-defense courses that cover critical thinking about strategies, assertiveness, powerful communication skills and easy-to-remember physical techniques. During this session, she'll demonstrate some simple holds and strikes you can use to protect yourself against an attacker.
